

Date:- 08/05/2024

Time:- 1.5 Hour

Program Explanation:-

Create simple image editor

Create three option

1. increase spacing it will increase padding of image.
2. Blur image
3. Base color to set background color.

Note : Its not compulsory to create same UI as per image, you can create simple as you can, don't waste more time in create UI only focus on **jquery** logic.

Update CSS Variables with JS

Spacing: Blur: Base Color
